PROFILE

Information Technology student with knowledge of Python, Data Structures & Algorithms, and web development. Experienced in building projects including a full-stack NeoBank application, an AI Resume Analyzer, and Secure Login & OTP Verification System. Skilled in HTML, CSS, and problem-solving, with familiarity in JavaScript, PHP, and Django. Experienced in using AI tools such as ChatGPT, Gemini, GitHub Copilot, and Antigravity for development, debugging, and learning. Interested in software development and building practical, user-focused applications.

EDUCATION

Bachelor of Technology (B.Tech) in Information Technology
Madhuben & Bhanubhai Patel Institute of Technology, CVMU, Gujarat **| Current CGPA: 8.03** (Till 6th Semester)
Higher Secondary School
A.J. High School, Vaso **| Percentage: 56.5%**
Secondary School
Bhakti Vedant High School, Deva **| Percentage: 79.8%**

TECHNICAL SKILLS

Programming Languages: Python, JavaScript(Basic), C, C++
Web Technologies: HTML5, CSS3, Responsive Web Design, Flexbox, CSS Grid, Transitions
Frameworks: Django
Tools: VS Code, GitHub
Database: SQLite(Basic)
Concepts: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP)
Areas of Interest: Web Development, Artificial Intelligence, Software Development
AI Tools & Skills: ChatGPT, Gemini, GitHub Copilot, Antigravity, Prompt Engineering, AI-Assisted Debugging, Code Generation
Soft Skills: Problem Solving, Adaptability, Continuous Learning, Teamwork

PROJECTS

AI Resume Analyzer *(Python + Streamlit)*

- Developed a tool to analyze resumes and compare them with job descriptions.
- Extracted skills and identified missing requirements from resumes.
- Generated suggestions to improve resume quality and ATS compatibility.
- Designed a simple and user-friendly interface for resume upload and analysis.

Secure Login & OTP Verification System *(Python + Django + SQLite)*

- Developed a secure login and registration system for Admin and Distributor users.
- Implemented forgot password functionality using Email OTP verification.
- Created role-based dashboards and user management features.
- Used SQLite to store user information securely.
- Built the application using Python, Django, HTML, and CSS.

Mini NeoBank Application *(React.js + Node.js + Express.js + SQLite)*

- Developed a digital banking application with secure login and account management features.
- Implemented user authentication using JWT and password security using bcrypt.
- Built responsive user interfaces using React.js and Tailwind CSS.
- Developed backend APIs using Node.js and Express.js.
- Used SQLite for storing and managing application data.
- Used AI tools such as ChatGPT, Gemini, GitHub Copilot, and Antigravity for development, debugging, and learning.

CERTIFICATION

- IBM SkillsBuild - AI Tutorial: Completed introductory artificial intelligence learning resources and gained exposure to basic AI
- BE10X - AI Tools Workshop: Completed an AI Tools and ChatGPT workshop focused on AI coding, and debugging techniques.

ACADEMIC ACTIVITIES

- Practiced clean UI design, responsive layouts, Python programming, and project-based learning through portfolio and web application development.
